March 2019 edition

Dear Parents,

During the general meeting for parents on 20th February, we had two guest speakers, Lucy Kung'u and Mrs Jean Wachira who both are lecturers and professional counselors at local universities. Their informative talk was on parenting skills. Notes from this meeting have since been sent to your emails. Find time to go through them.

The parents were also reminded that girls should have simple hair styles without extensions.

I would also like to inform the parents as a matter of policy, that we do not encourage extra tuition for students in our school. No member of MKA staff should approach the parents for the purpose of offering tuition at an extra cost. In case this happens we suggest that you contact the school management through my official email. It should also be noted that no student especially boarders should be forced to buy books unless the school has authorized the books and notification sent through the office.

Should you want to see any teacher, you are required to book an appointment through the office so that an appropriate time for the parents and the teacher can be picked.

The table below shows your class representatives and their contacts.

Stephen Matu
Head teacher
